

# CAPABILITY STATEMENT

CYBER - IT SECURITY - MISSION SUPPORT

## COMPANY INFORMATION

**UEI Number:** C9CXNGMP5RS3  
**CAGE Code:** 7GBN6  
**NAICS Codes:** 541519, 541512, 611420, 611430  
**SBA Certification:** SBA 8(a) Certified  
**GSA:** HACCS Schedule - 47QCA24D000J

## OUR MISSION

Advancing secure and modern operations, SparkC provides intelligence-driven Cyber and IT Security services, Managed and Proactive Security Solutions, and full-spectrum mission support. We leverage innovative technologies, expert talent, and disciplined processes to help our partners stay protected, agile, and ready to meet evolving mission demands. Together, we build resilient, future-ready environments that enable mission success in even the most complex operational landscapes.

## WHOM WE SERVE

SparkC proudly serves federal agencies, state and local governments, critical infrastructure organizations, and commercial enterprises that depend on secure, modern, and resilient operations. We support mission-driven leaders, security teams, and technology stakeholders who require intelligence-driven cybersecurity, trusted IT security operations, and full-spectrum mission support. Whether safeguarding national programs, strengthening statewide systems, or advancing commercial innovation, we deliver tailored solutions that meet the unique demands, risks, and regulatory landscapes of each environment—empowering our partners to operate with confidence and achieve mission success.

## CORE COMPETENCIES

### Managed Security Solutions

- + Managed Network & Cybersecurity Services
- + Multi-Vector Protection
- + Cloud Security
- + Managed Detection & Response
- + Managed Identity Services Engine (ISE)
- + Data Loss Prevention (DLP)
- + Security Training Program Implementation

### Proactive Security Solutions

- + vCISO Support
- + Network & Security Audit
- + Firewall & Configuration Review
- + High-Value Asset (HVA) Vulnerability Assessments
- + Threat Hunting & Intelligence
- + Penetration Testing
- + Incident Response & Back-up Support

## ABOUT OUR COMPANY

Founded in 2013, SparkC aimed to become a transformation partner to assist industry in mitigating and managing emerging cybersecurity risks, adapt to emerging training technologies and deploy learning management solutions.

Leveraging a team of seasoned experts, robust industry certifications, and a mission-driven mindset, SparkC empowers clients to identify and mitigate risk, elevate workforce capability, optimize mission systems, and achieve secure, compliant, and operationally effective outcomes.

## PAST PERFORMANCE

Delivering quality customer service and elevated subject matter expertise that built a battle-tested track record ranging from federal, state, local, and commercial sectors. Gaining exceptional CPARS in our pursuit to solve our clients challenges.

### Project Continuous Monitoring, Compliance and Remediation

**Client:** BlueCross-BlueShield Illinois - HCD International

**Performance Period:** 2023-2025

Provide continuous monitoring, compliance, and remediation support services managing the transmission of over 10 million secure data health records, PHI and PII data according to HIPAA, Hi-Trust and NIST.

### Project ATO and Vendor Compliance Support

**Client:** Department of Veterans Affairs - OAL

**Performance Period:** 2021-2022

Awarded a task order by the Department of Veterans Affairs to conduct risk assessments on third-party software in alignment with RMF, NIST SP 800-53 Rev. 4/5, and FedRAMP requirements as part of the pre-authorization to Operate (ATO) process.

### Project Global Quarterly Vulnerability Scanning & Remediation

**Client:** Ankura Corporation (Washington, DC)

**Period of Performance:** 2022-2023

Awarded 12-month quarterly external vulnerability scanning, penetration testing and remediation support on over 1000 assets globally. Analyzing Ankura's extensive global footprint, our team was tasked with assessing over 200 IP addresses. Our approach to external penetration testing encompassed the utilization of automated tools, alongside manual penetration testing techniques, followed by comprehensive remediation reporting and support.
